## The Mayor Asked What About It?

A News man called on Mayor James M. O'Brien and asked him what about the communication of the School Board, which appeared in Wednesday's Kentucky-Citizen? With that genial smile upon his face, he said:

"Well, really, if that sort of a thing is any pleasure to the distinguished and disinterested members of the School Board, and enables them to more completely proclaim their boasted 'independence' neither the members of the Council or myself have the slightest objection. We realize, of course that it is necessary for the School Board to do something to convince the tax-payers that the interests of the matter are better served by taking \$800 or \$200 that could be saved to them, and giving it to the Citizen's Bank and if by an attack on us, this amount can be made up by the people, we are perfectly willing to be sacrificed. Reply to it? Wouldn't you think it better to wait until some one or all of the members of the School Board write a proclamation of their own? The writer of that one—presumably the person who will be most benefited by the action of the School Board in changing the place of deposit of the fund—has never as yet been able to have his views upon any question affecting the interests of the city accepted by the people of Paris and he never will. The reason is a simple one. They know that the only impulse that ever moves him is self interest; they also know that he never had an unselfish thought in the course of his entire life; they further know his interest in this matter and consequently his garbled statements and charges carry little weight. The people know him, they know the members of the Council and the Mayor and they also understand the facts and issues involved in the controversy over the place of deposit of the \$42,000 received from the sale of school bond and what they charge meant to them. That, I take it, is a sufficient answer to your question."

## Evidence in Bribery Cases.

Circuit Judge R. L. Stout, who delivered a charge to the grand jury a few days ago, in Frankfort, urging that the rumors of bribery during the recent session of the General Assembly be investigated, has received a number of letters from Democrats and Republicans throughout the State congratulating him on the stand he has taken, and supplying him with a number of names of persons who will be likely to give the grand jury much valuable information.

It became known Wednesday that Judge Stout received a letter from a prominent physician in Louisville that will throw some light on the defeat of the County Unit bill. Judge Stout gave the members of the grand jury rigid instructions to keep secret all of their proceedings so that it will be difficult to get information during the investigation, but it is likely that before the session of the grand jury is brought to a close indictments which will surprise the people of the State will be found.

## Anti-Racing Bill Defeated.

The vote in the New York Legislature of Senator Owen Cassidy, of Schuyler, Republican, late Wednesday, caused a tie vote of 25 to 25, and defeated for the time, at least, the two Agnew-Hart bills, embodying the recommendation of Gov. Hughes, that legal protection be abolished, which, since 1895 has protected public gambling at race-tracks, whereas it was a felony elsewhere in the State.

Lieut. Gov. Chauley, in the chair, by casting his vote to break the tie upon a parliamentary motion, which, but for him, would have resulted in killing the bills for the rest of the session, saved them for another vote at the discretion of their introducer, Senator Agnew, at any time when the order of business permits him to call up the matter.

### Sound Democratic Talk.

The revision of the tariff by the enforced consent of both parties, will be the chief questions at issue during the campaign. The Republicans have pretty generally explained their position on it. Compared with it, the following views expressed for the Democratic party by Judson Harmon appear almost extreme in that they would substitute action for compromise and revision for the benefit of the consumer rather than for the trust:

"Careful estimates show that for every dollar the Government gets on goods imported the men favored by the Dingley law get \$19 in swollen profits on their products.

"To make the injustice worse, the cardinal principles of tariff taxes which the Democrats have already followed, have been disregarded.

"That the amount of the tax should depend on the need of the Government, economically administered.

"That the chief burdens should be laid on luxuries.

"That duties should be according to value only, and not so much for each article, which makes the poor pay the same for cheaper grades as the rich pay for the higher grades.

"In short, the amounts taken from the people for established and successful manufacture is by virtue of these excessive tariffs are simply graft. Protection has become a false pretense.

"With this cunning scheme of enriching the few at the expense of the many, so long in force, during a period of tremendous development, is it any wonder that there are 'swollen' fortunes while raises in wages and salaries are consumed by increased cost of living? Are you surprised that wealth should prey on the people and under color of laws made in their name? Is it not plain why the trusts have grown and multiplied until they fill the sky?"

"And now at last they are forced to admit that these tariff impositions, which breed swollen and predatory wealth and trusts, should be cut down, but not until after the election, and then by 'their friends,' the same friends who contrived them and have fattened on them so long. This announcement just before the election recalls the creation of the department of Mr. Cortelyou just before the last election, so that he could pass the hat with effect, as, in spite of the bold denial of Judge Parker's charges, we know now he did."

### Vetoed for Special Purpose.

For several years the sentiment in the State has been demanding that the number of jurors which a defendant in a criminal case may excuse should be reduced from fifteen to ten or some other number below fifteen. This sentiment was given expression in a very strong paper read by Col. John R. Allen, of Lexington, before the State Bar Association at its session at Winchester in 1906.

The Legislature that has just adjourned passed such a bill reducing these challenges from fifteen to ten, but when the bill reached Governor Willson he killed it by veto. The same Legislature passed a bill providing that when a witness has once testified and his testimony has been preserved and the witness has died, the testimony given by him before he died may be read on a subsequent trial of the case.

These both seem to be good measures, but were both vetoed by Gov. Willson and in his veto he suggests that they were passed for a special purpose.

A great many people believe that he vetoed them for a special purpose, and that if Caleb Power was not again to be tried Gov. Willson would not have found these bills objectionable.

### Dying Hard.

The tobacco trust is dying hard. In its last struggles it has redoubled its efforts to throw discredit upon the Burley Society by publishing broadcast untruthful reports of alleged night rider outrages. Be calm, sit still in the boat, and when fifteen more days have passed the last gasping breath of the tobacco trust will have died away and the terrible grasp of its boney fingers on the farmers' throat will relax and fall beside the carcass, and all will be free.

### The Cost of War.

The House passed Saturday in Committee of the Whole the appropriations for fortifications and coast defenses. There was practically no partisan debate or opposition except as to details.

In a speech in New York City that evening Representative Boutell, of Illinois, said that since the foundation of the Republic the total expenses of the Government had been twenty-one billion dollars. Two-thirds of this vast sum, or fourteen billion, were spent for the Civil War alone. One-half our current expenses are now for war.

If the past cost of smaller wars were added the disproportion would be more startling. According to the World Almanac the "civil and miscellaneous expenses" of the Government from 1793 to 1907 were a little over four billions--only about one fifth of the whole.

### Directly Responsible.

Governor Willson's idea of upholding the law seems to be to charge all the night riding and lawlessness in the State to the Burley Tobacco Society and then proceed to crush the Burley Society. He can see no violation of law in any other direction. He will not see that acts of violence are the work of an uncontrollable element for which the methods of the trust is largely responsible, if not directly. This turbulent element was brought into existence by the overmastering greed of the trust in employing underhanded methods to crush and humiliate the growers and incite them to violence.

### Not This Year.

There is a bureau in New York City that is sending out literature telling of the many qualities of former Governor W. L. Douglas, of Massachusetts. Governor Douglas is an advocate of immediate tariff revision, a mighty good sloan. It seems that the bureau is trying to place him in the running for the Presidential nomination. He is a splendid man, but this is not the year for him, unless he wants to take second place.

### The Poor Worm.

"If the Night Riders destroy all the tobacco in Kentucky, what is the poor tobacco worm going to do for food?" asks the Louisville Herald. It will have to follow the smokers' example, and get used to cabbage.

### Baseball Trust.

Between 5,000,000 and 6,000,000 "official" baseballs are used yearly on the American diamonds. The declared advance of 25 cents on each ball this year means, therefore, more than \$1,250,000 increase to the handlers. The first baseball factory was started in 1858. It may be then that the manufacturers intend the fresh profit as a slight golden-jubilee token to themselves.

### Assurance of Peace.

The Official Gazette of Tokio points to Japan's \$106,000,000 imports from the United States last year and \$65,000,000 exports to the United States as an assurance of peace. In the financial and industrial conditions now prevailing in both countries, neither Japan nor the United States feels any need of such a luxury as a war.

President Roosevelt has ordered the Department of Justice to be lenient to the railroads in enforcing the "commodity clause of the railroad rate bill, which goes into effect on May 1. This will allow the Coal Trust to still own railroads and coal mines and continue to charge exorbitant prices.

Seven years of Roosevelt and ten years of Republican rule and Dingleyism have bred innumerable trusts and culminated in a financial panic and prolonged business depression.

John Sharp Williams, the Democratic leader, is making good his promise to filibuster until the Republican leaders allow reform bills to be reported from the committees.

And now it is said that Boss Cox of Cincinnati, having done the dirty work to secure a Taft delegation from Ohio is to be quietly pushed aside. But suppose Boss Cox refuses to be eliminated and joins the Foraker faction in making trouble.

### FROM OUR WASHINGTON MAN.

WASHINGTON, April 7.—However the people of the country at large may regard the Democratic filibuster that was inaugurated in the House last week, it has certainly furnished not a little amusement to many members of both parties and to the thousands of visitors who at present throng the Capital City and occupy all available space in the numerous hotels and more numerous boarding houses. Just at this season Washington always is the mecca for high school and seminary junkies, but this year these excursions have been especially frequent and extended, and every incoming train seems to bring another party. The White House and Capitol usually from the magnetic centers, leaving the many other points of interest to mere "side trips." But the lively skirmishing that has been taking place in the House during the last week or so has served to attract and hold nearly all, that is, all who could gain admission to the crowded galleries, while the others have stood in line in the corridors and waited their turn. When Minority Leader Williams compared Congressman Payne, the Republican floor leader, with Honest John Falstaff the other day, the members on both sides were much affected while the galleries indulged in uproarious laughter, but the witty Mississippian literally "brought down the house" when he resorted to rhyme and derailed that the action of the Republicans in desiring to put off all constructive legislation until after the Presidential election reminded him of a verse his small son had found at school and brought home: When I asked my girl to marry me, she said,

"Go to father;"  
She knew that I knew her father was dead;  
She knew that I knew what a life he had led;  
She knew that I knew what she meant when she said:  
"Go to Father."

Mr. Williams asserted that there are many Republicans living in tariff revision district who want tariff revision, but declared they do not want it refused by being told to "Go to Father."

An investigation has been made by Herbert Knox Smith, Commissioner of Corporations in the Federal Department of Commerce and Labor, of the bills which have been introduced in Congress aimed at the prevention of dealing in farm products for future delivery, and he has decided unofficially that these "features" are neither premeditated nor harmful to the community. As a matter of fact every merchant in the country is dealing in futures all the time. Frequently the government makes contracts for supplies with merchants who have not the goods on hand and who must arrange to get possession of them before they can deliver them. The principle is exactly the same as obtains in the cotton and grain exchanges of New York and Chicago. The operator at Chicago, for example, agrees to deliver a certain quantity of grain within a specified time. He has no grain in his possession. It is growing. When the time arrives for delivery he must observe his agreement, and he exchange sees to it that delivery is made. Future needs for consumption are thus provided for without glutting the market after harvest. The agrarian party of Germany believed the effect of prohibition of futures would be to make prices for grain more stable. It has had a directly contrary effect. In some of our town Southern States the "anti-future" laws have stopped the dissemination of quotations. The farmer consequently is unable to obtain any information, and large operators who get quotations through their agents cotton or wheat at prices lower than those ruling on the exchange.

### Chamberlain's Has the Preference.

Mr. Fred C. Hanrahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have sold and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the best patent medicines on the market. I handle some others for the same purpose that pay me a larger profit, but this remedy is so sure to effect a cure, and my customer so certain to appreciate my recommending it to him, that I give it the preference." For sale by W. T. Brooks. You need no other guarantee.

### New Dean in Law.

It has been announced that Judge W. T. Lafferty, of Cynthiana, will be made dean of the law department which will be established at the State University. The establishment of the law department was one of the developments contemplated when Kentucky State College was recently made a university. It is understood that at the meeting of the board of trustees, called for April 14 in Lexington, steps will be taken to complete the details for establishing the law department and that Judge Lafferty will be elected dean of the faculty and will assume the duties in June. It is also reported that in addition to his position as dean of the law department Judge Lafferty will elect financial trustee of the university, in which capacity he will have supervision of the funds. Judge Lafferty has been for a number of years a trustee of State College and has practiced law for twenty-eight years. He has been County Attorney, County Judge and representative in the Legislature from Harrison.

### "One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by W. T. Brooks. You need no other guarantee.

### Shake in Bottle.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that rheumatism and kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kagon, three ounces Compound Syrup Sarsaparilla. Mix by shaking well in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home made mixture at the first sign of rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Anyone can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

### Trouble in the Ranks.

Trouble has arisen in the ranks of the Burley Tobacco Society over the retention of 10 per cent. of the receipts of sales to pay the expenses of the society's organization. A meeting was held in Cincinnati which was attended by President Clarence Lebus and fifty growers. Members of the organization say 10 per cent. of the gross receipts is too large a tax.

### Fish That Cold Cannot Harm.

Some varieties of fish can stand any amount of cold without harm. Perch will live in ponds which are frozen practically solid in every hard winter. The whitefish of Canada, caught through holes in the ice, have been picked up frozen so stiff that they would break like brittle sticks, yet when carefully thawed out showed signs of life.

"No, Sir! You cannot palm off any substitute on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing! Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators? August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

—The matinee dance at the M. M. I. Monday afternoon from 2 to 5, closed the series of lessons of Mrs. Hughes, of Lexington. It was the event of the season, the weather was ideal and most all invitations were responded to. Visitors were here from Paris, Lexington, Cynthiana, and Carlisle. The most attractive feature of the occasion

was the cake walk and little skirt dance by the three-year-old daughter of Mrs. McMeekin, of Lexington. Miss Foster, of Lexington, sang two vocal solos to the delight of all. About twenty persons were present from Lexington. Mrs. C. C. Clark, Mrs. Harmon Stitt and Miss Nellie Fee, represented Paris. Mrs. Hughes has made many friends in the short time she has been among us and we hope to have her here again next year, promising her a larger class than this time.

—The first ball team of the Millersburg Military Institute will cross bats Monday afternoon with the Kentucky Commercial Business College, of North Middletown. This game was to have taken place April 4th, but it was impossible for the North Middletown team to get here on that date. The game is looked forward to with much interest as it is the first of the season for M. M. I. team.

—The work of re-boring the well at the Millersburg Female College was begun Tuesday. About three years ago Prof. C. C. Fisher bored an artesian well on the same site to a depth of more than 100 feet but failed to find water.

He has decided now to bore the same well to a depth of 300 feet. There is evidently water there, but thus far, the attempt to strike the pocket has proven futile.

## Judge Cantrill's Funeral.

In the presence of hundreds of admirers, relatives, fellow-jurists and friends, the body of James Edward Cantrill was consigned to its last resting place in the Georgetown cemetery, Tuesday afternoon.

The funeral services were held at the Christian church. Promptly at 2 o'clock the funeral procession, headed by the Frankfort Military Band and with the Knights Templar, Elks and Masons in line, left the Cantrill residence on Chambers avenue and proceeded to the church.

As the procession filed into the church the band played softly "Nearer My God to Thee," and "Lead Kindly Light." After entering the church a touching prayer was offered.

This was followed by addresses by Rev. E. G. B. Mann, of Lexington, and Judge Overton Harris, of Louisville, both being intimate friends of the deceased during his life. Both of these eloquent men paid a glowing tribute to the memory of Judge Cantrill and mentioned some of the great and generous deeds done by him during his career.

Madame Cecelia Bailey, of Shelbyville, sang two beautiful vocal selections, which was followed by "Lead Kindly Light," sung by a quartette composed of Misses Martha Snead, Nannie Bridges and Messrs. John DeGaris and Maurice Crawley.

The Commandery of Knights Templar gathered around the casket and the funeral service of that order was enacted. The body was then removed to the cemetery where the Masons were in charge of the burial service.

The floral decorations were gorgeous and beautiful many different emblems being presented by the orders and societies of which the deceased was a member. Probably the largest crowd that ever gathered in Georgetown to pay tribute to a dead citizen was in attendance both at the church and at the grave. The pall bearers were:

Honorary Bearers.—Chief Justice E. C. O'Rear, Justices Nunn, Carroll, Hobson, Settle, Barker, Lassing and Clay, Judge Wm. S. Pryor, Jas. H. Hazeltine, W. O. Harris, J. H. Mulligan, Arthur Goebel, Wm. McMillen, Col. J. Stoddard Johnston, Col. Chas. E. Hoge, John W. Allison, John A. Bell, Geo. V. Payne, John B. Graves, Cassius M. Clay.

Active Bearers.—Robt. B. Franklin, Judge Robt. L. Stout, Louis des Cognets, Field McLeod, Albert Thompson, Dr. W. H. Cofferman, W. O. Carriek, J. D. Grover, Horace Posey, Eph Lillard.

Escorts.—Confederate Guard, Knights Templar, Mt. Vernon Lodge No. 14, F. & A. M., Elks Lodge, No. 526, Citizens.

Geo. R. Davis, the well-known funeral director, of Paris, was in charge, assisted by his brother, Rudolph Davis and we have heard a large number of compliments on these young gentlemen in regard to the even manner in which they handled the large crowd and conducted the funeral in every detail.

## Mr. Thomas Not a Candidate.

Hon. Claude M. Thomas will not be a candidate for the Democratic nomination for Congress at the primary election to be held on the 12th day of May.

Mr. Thomas arrived at this decision after listening to many personal and political friends who called at his law office in the Agricultural Bank building. Mr. Thomas in an interview made the following statement:

"I am not a candidate, nor have I seriously thought of becoming a candidate. Many friends have talked to me, and many have written, urging the advisability of making the race, believing, no doubt, that at least once in half a century Bourbon county was entitled to this distinction. I had hoped that some one else from our county would ask for the nomination.

"Concerning myself, however, this call for a primary, had I been disposed to run, would have eliminated me, as it has, no doubt, other men commanding but moderate means. Since the election of last fall and other recent events, whether or not there was truth in the accusations as to party mismanagement, all Democrats were hopeful that we were through with machine politics.

"At the first opportunity Mr. Kimball, in control of the committee, imposing upon the Democracy of this district a call for a primary which was intended to 'machine' a renomination for himself by fixing a date which would not permit a canvass of the district, and with a pecuniary penalty, unnecessary, I think, to impose.

Mr. Thompson, the member of the committee from Bourbon county, I am informed, would not have supported the resolution had not arrangements been already effected to carry it without his vote. I am heartily for Senator Cantrill for the Congressional nomination, and I believe that every Democrat who favors fair play in politics as well as in business affairs will support him."

## When She Wishes.

A woman is never so apt to wish she were a man as when she sees one get up from the table with never a backward look or thought of the dishes.

## The Industrious Hen.

Time was when farmers grudgingly tolerated poultry as a concession to their wives. But it is different now. The industrious hen is one of the bulwarks of the farm.

Just before reaching the big bridge at the foot of Main street, the coupling pin of the wagon fell out, throwing some of the wire and Patterson under the heels of the team of mules, which ran off, the wagon passing over Patterson's body. The negro was unconscious for several hours and when he awoke he thought he was probably fatally injured.

**"MY STAR,"****The Royal Bred Combined  
Stallion,**

Will make the season of 1908 at my  
stable at Kiserston, Ky., 3 miles North  
of Paris, on Shawhan and Kiser pike.

He is from Kentucky's great show  
horse family, he being sired by  
"Montgomery Chief," the sire of  
"Daisy Field," which sold at a 4-  
year-old at \$7,500; also "American  
Girl," at \$5,000, "Montgomery Chief,  
Jr.," \$1,000 at 2 years old.

"My Star's" 1st dam has produced  
three colts which sold at an average  
of \$3,200.

His 1st dam by "Simmons' Clark  
Chief."

2nd dam "Tattler Chief."

3rd dam "Denmark."

4th dam "Cook Spur." (Tho.)

"My Star," is a rich bay, 15½  
hands high, foaled in 1903, star and  
snip in face, white ankles, heavy  
mane and tail, which he carries to  
perfection, has colts of style and a  
hackney in action. Will serve mares

**At \$20 to Insure a Colt.**

Also at the same time and place, a  
good mule Jack, 15½ hands, with  
good ear, plenty of bone and sub-  
stance. Good breeder. His mules

**\$20 to Insure a Living Colt.**

DESCRIPTION.—Forest Denmark is  
a solid bay, 16 hands high, has great  
natural style; carries head and tail  
high, and is not second to any stallion  
in Kentucky as a getter of high-priced  
saddle and harness horses.

He has always been at the head of  
the stud at Woodford's Stock Farm,  
Mt. Sterling, Kentucky. I was able  
to get him from the fact that my  
father's brood mares are nearly all by  
him.

Forest Denmark is the sire of the  
Chancellor that won sixteen blue tie,  
in 1906, also his mate The Cardinal,  
which team won, single and double,  
thirty-eight blue ties in 1907. He has  
sired three other geldings which sold  
at an average price of \$2,821.

The breeders of Bourbon county have  
never had, and probably never will  
have again, the opportunity to breed  
to the equal of Forest Denmark at \$20.

TERMS.—Money due as soon as colt  
comes, mare parted with or bred to  
another horse. Mares from a distance  
grazed at \$3 a month. Every precau-  
tion will be taken to prevent accidents  
or escapes, but will not be responsible  
for those that occur.

Horse, 15.3—A Colt Trotter and  
Sire of Colt Trotters.

**SEASON 1908****The RIDGE STOCK FARM.****Fee \$50 The Season**

To Insure a Mare in Foal.

**Sam'l Clay,**

Paris, - - - Kentucky.

WIGGINS is a horse of attractive  
conformation, 15.3 hands high, full of  
quality, and with fine feet and legs.  
In disposition and manners he is per-  
fect. His colts are uniformly good colors  
and inherit his bold, frictionless  
way of going. They are generally pure  
gaited and trot with light shoes and  
few boots. WIGGINS himself wore a 7-ounce shoe with no boots in front.  
He was foaled a trotter, and as a yearling trotted a mile over a three-  
quarter mile track in 2:33½. He took his record when two years old and  
won five straight stake races and \$4,000 that season. Douglas Thomas, his  
trainer, says he could have trotted a mile over a good track in 2:12. His  
colts not only trot fast young, but sell for high prices. He was himself a  
bold finisher and his colts are like him in this respect. For an out-cross for  
in-bred mares you can't do better than to breed to WIGGINS, though he  
nicks well with mares of any breeding. No other stallion at the same age  
has ever accomplished more than WIGGINS. No other stallion of any age  
ever had three two-year-olds to beat 2:18 trotting in one year. No other  
stallion ever had seven trotters in 22.0 list at ten years.

Read what the Lexington papers say  
of the Yankee Doodle Stock Co.

The Lexington Herald says: "The  
Yankee Doodle Stock Company open-  
ed a week's engagement at the Lex-  
ington opera house yesterday, present-  
ing 'In Dixie Land' at the matinee and  
"Anita, the Singing Girl" at night.  
It is one of the best stock organiza-  
tion that has been seen here in  
some time. One feature of the  
company's performances is the vaude-  
ville sketches between acts, which in-  
clude Raymond Paine, Grace King,  
Baby Dodo, Rural Alvin and DeHollis  
& Velora. "The Great Devereaux  
Case" will be given tonight. There  
will be matinees daily."

The Lexington Gazette says:  
"The Yankee Doodle Stock Company  
delighted two large audiences at the  
Lexington opera house yesterday, pre-  
sented 'For His Sister's Honor' at  
the matinee, and 'The Great Devereaux  
Case' in the evening. At  
the matinee today, 'Her Wedding  
Bells' will be given, and tonight the  
sensational Western play, 'The Boy  
From the West.' The vaudeville  
features between the acts continue to  
please."

The Yankee Doodle Co. will open  
here Monday evening and present the  
big musical comedy, "Anita, the  
Singing Girl." Ladies tickets for  
Monday night 15c each, if bought in  
advance at the sale.

Mrs. E. D. Charles, of Harbor,  
Maine, speaking of Electric Bitters,  
says: "It is a neighborhood favorite  
here with us." It deserves to be a  
favorite everywhere. It gives quick  
relief in dyspepsia, liver complaint,  
kidney derangement, malnutrition,  
nervousness, weakness and general  
debility. Its action on the blood, as a  
thorough purifier makes it especially  
useful as a spring medicine. This

**If You Read This**

It will be to learn that the leading medi-  
cal writers and teachers of all the several  
schools of practice recommend, in the  
strongest terms possible, each and every  
ingredient entering into the composition  
of Dr. Pierce's Golden Medical Discovery  
for the cure of weak stomach, dyspepsia,  
rattling of stomach, "liver complaint,"  
torpid liver, or biliousness, chronic bowel  
affections, and all catarrhal diseases of  
whatever region, name or nature. It is  
also a specific remedy for all such chronic  
or long standing cases of catarrhal affec-  
tions and their resultant, such as bronchial,  
throat and lung diseases (except consump-  
tion) accompanied with severe coughs. It  
is not good for acute colds and coughs,  
but for lingering, or chronic cases it is  
especially efficacious in producing per-  
fect cures. It contains Black Cherry bark,  
Golden Seal root, Bloodroot, Stone root,  
Mandrake root and all remedies for  
which are highly praised as remedies for  
all the above mentioned affections by such  
minent medical writers and teachers as  
Prof. Bartholow, of Jefferson Med. Col-  
lege; Prof. Hare, of the Univ. of Pa.;  
Prof. Finley, of Chicago; M. D., of Ben-  
nett Med. College, Chicago; Prof. John  
King, M. D., of Cincinnati; Prof. John  
M. Scudder, M. D., of Cincinnati; Prof.  
Edwin M. Hale, M. D., of Hahnemann  
Med. College, Chicago, and scores of  
others equally eminent in their several  
schools of practice.

"The Golden Medical Discovery" is the  
only medicine put up for sale through-  
out the world for like purposes, that has any  
such professional endorsement—worth  
more than any number of ordinary testi-  
monials. Open publicity of its formula  
is the best possible guaranty of its purity.  
A glance at this published formula will  
show that "Golden Medical Discovery"  
contains no poisonous, harmful or habit-  
forming drugs and no alcohol—chemically  
pure, triple-refined glycerine being used  
instead. Glycerine is entirely unobjec-  
tionable and besides is a most useful agent  
in the cure of all stomach as well as bron-  
chial, throat and lung affections. There  
is the highest medical authority for its  
use in all such cases. The "Discovery" is  
a concentrated glyceric extract of native,  
medicinal roots and is safe and reliable.  
A booklet of extracts from its ingredi-  
ents mailed free on request. Address

**How She Kept Her Youth.**

Some one once asked a woman how  
it was she kept her youth so wonder-  
fully. Her hair was snowy white,  
she was eighty years old, and her  
energy was waning, but she never  
impressed one with the idea of age,  
for her heart was still young in  
sympathy and interest. And this was  
her answer: "I know how to forget  
disagreeable things. I tried to master  
the art of saying pleasant things. I  
did not expect too much of my friends.  
I kept my nerves well in hand and did  
not allow them to bore other people. I  
tried to find any work that came to  
hand congenial. I retained the illu-  
sions of my youth, and did not believe  
'every man a liar' and every woman  
spiteful. I did my best to relieve the  
misery with which I came in contact,  
and sympathized with the suffering.  
In fact, I tried to do too others as I  
would be done by, and you see me in  
consequence reaping the fruits of hap-  
piness and a peaceful old age."

**The Thrice-a-Week World.**

A President of the United States  
will be elected this year. Who is he  
and who is the man he will beat? No-  
body yet knows, but the Thrice-a-week  
edition of the New York World will  
tell you every step and every detail of  
what promises to be a campaign of the  
most absorbing interest. It may not  
tell you what you hope, but it will tell  
you what is. The Thrice-a-Week  
World long ago established a character  
for impartiality and fearlessness in the  
publication of the news, and this it  
will maintain. If you want the news  
as it really is subscribe to the Thrice-  
a-Week edition of the New York  
World, which comes to you every other  
day except Sunday, and in thus practi-  
cally a daily at the price of a weekly.  
The Thrice-a-Week World's regular  
subscription price is only \$1.00 per  
year, and this pays for 156 papers.  
We offer this unequalled newspaper  
and the Bourbon News together for  
one year for \$2.50. The regular sub-  
scription prices of the two papers is  
\$3.00.

**Wants All Tobacco Destroyed.**

At the Laymen's Conference of the  
Methodist church of New York, Bishop  
Moore, who presided, in addressing five  
candidates for the ministry, urged  
them to make war on tobacco. He said:  
"I tell you my sympathy goes out to  
the 'night riders' who have destroyed  
the tobacco warehouses. I only wish  
that they had put on the fields, not ex-  
actly dynamite, but something that  
would hinder the growth of this  
noisome weed and let the fields be  
turned over to the growth of the staff  
of life."

"Somebody tells us that his grand-  
father smoked and died at eighty years  
of age. Well, tell him that if his  
grandfather had not smoked he might  
have lived to be one hundred years old.  
"I wish all you men would speak out  
against tobacco, for it frequently leadeth  
to that other thing which curseth and  
leadeth to damnation."

**The Jumping Off Place.**

"Consumption had me in its grasp;  
and I had almost reached the jumping  
off place when I was advised to try Dr.  
King's New Discovery; and I want to  
say right now, it saved my life. Im-  
provement began with the first bottle,  
and after taking one dozen bottles I  
was a well and happy man again,"  
says George Moore, of Grimsland, N. C.

preventing pneumonia New Discovery

## BLOCKADED

Every Household in Paris Should  
Know How to Resist It.

The back aches because the kidneys  
are blockaded.  
Help the kidneys with their work.  
The back will ache no more.  
Lots of proof that Doan's Kidney  
Pills do this.

J. J. Reber, living on Pike street,  
Cynthiana, Ky., says: "In a state-  
ment I gave in 1903, I told about  
Doan's Kidney Pills and about the cure  
I received from their use. Four years  
have elapsed since that time and I have  
not suffered since. I do not hesitate  
to re-endorse every word I said in my  
previous statement as I know Doan's  
Kidney Pills act as represented."

Plenty of proof like this from Paris  
people. Call at J. A. Wilson's drug  
store and ask what customers report.  
For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,

States.

Remember the name—Doan's—and

The Packers' Combine has boosted  
the price of beef and pork from 20 to 30  
per cent and our Republican President  
and Congress take no efficient steps to  
bring the trust to time.

### Suffering and Dollars Saved.

E. S. Loper, of Marilla, N. Y.,  
says: "I am a carpenter and have had  
many severe cuts healed by Bucklen's  
Arnica Salve. It has saved me suffer-  
ing and dollars. It is by far the best  
healing salve I have ever found." Heals  
burns, sores, ulcers, fever sores,  
eczema and piles. 25c at Oberdorfer's,  
the druggists.

The Republican leaders want to pass  
the Aldrich currency bill and will hold  
a caucus of Republican Congressmen  
to try and force it down the throats of  
the reformers who favor the Fowler  
bill.

### Keeping Open House.

Everybody is welcome when we feel  
good; and we feel that way only when  
our digestive organs are working prop-  
er. Dr. King's New Life Pills regu-  
late the action of stomach, liver and  
bowels so perfectly one can't help feel-  
ing good when he uses these pills. 25  
cents at Oberdorfer's drug store. apr

### Great Army Plans.

By direction of the President, the  
Special Army Board, of which Brigadi-  
er General Wetherspoon, President  
of the War College, is President, has  
been appointed to draw up plans for a  
general reorganization of the army on  
modern progressive lines, calling for  
the authorized increased strength for  
65,000 officers and men to 100,000 offi-  
cers and men in the regular army.  
The plans will also call for a closer  
relationship between the organized  
militia and the Regular Army looking  
to a quicker mobilization of these two  
branches.

### Important Decision.

That the Kentucky statutes impos-  
ing a tax on distilled spirits in bond-  
ed warehouses does not violate the  
Federal Constitution was asserted by  
the Supreme Court of the United  
States in a decision handed down yester-  
day by Justice McKenna in the case  
of J. B. Thompson vs. the Common-  
wealth of Kentucky.

### Sensational Charge to Grand Jury

Circuit Judge Stout in his charge to  
the grand jury at Frankfort did not  
directly mention the recent Senatorial  
race, but he said the crime of vote sell-  
ing was a most heinous one in any  
form, but especially was it contempti-  
ble when a man elected to the Legisla-  
ture by his constituents "comes to the  
State Capital and fails to carry out the  
wishes of his people, or, in other  
words, sells out."

He said it was a matter of common  
rumor that lobbyists had bought votes  
for and against certain measures and  
he told the grand jury that it was  
their duty to investigate the matter  
fully both as to who sold out their con-  
stituents and those who did the buying.  
It is understood that all the newspaper  
reporters who served here during the  
legislative session will be summoned  
to tell where they heard the bribery  
rumors that were so frequently pub-  
lished.

### HERE'S IDEAL MODEL CITIZEN.

The Coming Man as Seen by Admir-  
ers of Socialism.

To describe an ideal modern citi-  
zen now is at best to make a guess  
and a suggestion as to what must be  
built in reality by the efforts of a  
thousand minds. But he will be a  
very different creature from that in-  
different, well-behaved business man  
who passes for a good citizen to-day.  
He will be neither under the slave  
tradition nor a rebel, nor a vehement  
elemental man. Essentially he will be  
aristocratic; aristocratic not in the  
sense that he has slaves or class in-  
feriors, because probably he will have  
nothing of the sort, but aristocratic in  
the sense that he will feel that the  
state belongs to him and he to the  
state. He will probably be a public  
servant; at any rate he will be a man  
doing some work in the complicated  
machinery of the modern community  
for a salary and not for speculative  
gain. Typically he will be a profes-  
sional man. I do not think the ideal  
modern citizen can be a person living  
chiefly by buying for as little as he  
can get; indeed, most of what we  
idolize as business enterprise, I think  
he will regard with very considerable  
contempt. But then I am a Socialist  
and look forward to the time when the  
economic machinery of the commu-  
nity will not be a field for private en-  
richment but for public service.—  
Everybody's Magazine.

Rapid changes of temperature are hard  
on the toughest constitution.

The conductor passing from the heated  
inside of a trolley car to the icy temperature  
of the platform—the canvasser spending an  
hour or so in a heated building and then  
walking against a biting wind—know the  
difficulty of avoiding cold.

Scott's Emulsion strengthens the  
body so that it can better withstand the  
danger of cold from changes of temperature.

### There's the Rub.

It is a thing of no great difficulty to  
raise objections against another man's  
oration—nay, it is a very easy matter;  
but to produce a better in its place is  
a work extremely troublesome.—  
Plutarch.

### Sure Thing.

When a woman wonders why she  
is taking on flesh, and a man tells  
her it is because she eats too much  
and doesn't do enough work, it is  
safe to say that this is a married  
couple.

### Hot Water, Perhaps.

For hoarseness, beat up the white  
of an egg, flavor with lemon and  
sugar, and take something occasion-  
ally.—Somerville Journal.
